

PILGRIMS OF HOPE FOR CREATION

The Great Rivers as Waters of Life

SEPTEMBER 27-28, 2025

Join us on a pilgrimage focused on the beauty and fragility of the Great Rivers and the life-sustaining wetlands along the Mississippi and at the Confluence with the Missouri.

We walk together to:

- observe, listen and learn from the Rivers and the communities of plants, animals and humans that depend on these living waters
- renew our commitment to care for our common home and to restore humanity's sacred relationship with the environment
- be inspired to hope

**SPACES LIMITED
REGISTER NOW**

\$100 Registration includes:
